PROFESSIONAL SUMMARY

Results-driven Software Engineer and QA Analyst with 1+ year of experience in system design, database architecture, and full-stack development. Proven ability to translate complex business requirements into scalable technical solutions across enterprise platforms. Skilled in Python, Java, SQL, RESTful API integration, and Agile delivery. **LeetCode Knight** (Rating **1937**, top ~3% globally). Seeking software development and engineering roles where I can leverage NLP, backend systems, and data-driven problem solving to ship high-quality products.

TECHNICAL SKILLS

Languages	Python, Java, C++, C, SQL, Kotlin
Databases	Microsoft SQL Server, MySQL, SSMS, MongoDB
Frameworks	Django, Flask, Jetpack Compose
AI / ML	NLP, GPT, BERT, Sentiment Analysis, Machine Learning
Tools	Git, GitHub, VS Code, IntelliJ IDEA, Power BI, Tableau
Core Concepts	Data Structures & Algorithms, System Architecture, Database Schema Design, RESTful APIs, Requirements Analysis, Agile Methodology, SDLC, CI/CD
Soft Skills	Technical Communication, Client Management, Team Leadership, Cross-functional Collaboration

EXPERIENCE

Quality Assurance Engineer & Technical Analyst

Sep 2025 – Present

Saitec International — Noida, India

- Architected end-to-end database schemas for *Xazina*, a jewelry project-management system, enforcing referential integrity and enabling horizontal scalability for **10,000+ SKU** records.
- Translated business requirements from **4 enterprise** client engagements into detailed technical specifications, reducing feature ambiguity and cutting rework cycles by an estimated **20%**.
- Executed structured QA test cycles across Agile sprints, identifying and resolving **50+ critical SQL** and architectural defects that improved system uptime by **15%**.
- Managed the full SDLC for three enterprise platforms—*Kanchan*, *CTM*, and *HRMS*—coordinating feature rollouts and prioritising bug fixes to maintain **sub-24-hour SLA** compliance.
- Acted as the primary technical liaison between **5 stakeholders** and the engineering team, conducting daily stand-ups that aligned product roadmaps and accelerated delivery timelines by **10%**.

PROJECTS

MindEase — AI Mental Health Assistant

Oct 2024

Python, Flask, GPT, BERT, NLP, Machine Learning

- Engineered a conversational mental health chatbot using NLP pipelines (GPT + BERT), achieving **85%+** sentiment-classification accuracy on a 500-sample validation set.
- Designed and deployed RESTful API endpoints via Flask, reducing average response latency to under **300 ms** and supporting concurrent sessions for **100+ test users**.
- Implemented BERT-based sentiment analysis to personalise resource recommendations, increasing simulated user engagement scores by **30%** over a rule-based baseline.

Cabotel — Real-Time Cab & Hotel Booking Platform

Aug 2024

Django, Python, MongoDB, JavaScript

- Built a full-stack booking system using Django REST Framework and MongoDB, reducing average booking-flow completion time by **25%** through UI/UX optimisation.
- Designed a unified data model integrating transportation and accommodation modules, eliminating **3 redundant API calls** per session and cutting backend processing time by **18%**.

Rythmonex — Music Recommendation Engine

Jun 2024

Kotlin, Jetpack Compose, MVC Architecture

- Developed a personalised music-recommendation engine in Kotlin with Jetpack Compose, delivering curated playlists with **90%+** relevance scores based on listening-habit analysis.
- Enforced MVC architecture, separating data, logic, and UI layers to reduce code coupling and enabling feature iterations **40% faster** than the initial monolithic prototype.

EDUCATION

Bachelor of Engineering in Computer Science

Chandigarh University, Punjab, India

Aug 2021 – Jul 2025

CGPA: 6.8 / 10

Intermediate — CBSE

G.R. Sr. Sec. School, Bhiwani, Haryana

2018 – 2019

Percentage: 72%

ACHIEVEMENTS & CERTIFICATIONS

- Achieved **LeetCode Knight Badge** with a contest rating of **1937**, placing in the top **~3%** of competitive programmers on the platform globally.
- Earned **HackerRank 5-Star Gold Badge** in Java Programming, ranking in the top 5% of assessed developers globally.
- Served as **Event Coordinator** at Chandigarh University, managing end-to-end logistics for **1,000+ participants** across 3 annual technical fests.
- Completed industry certifications in **Discrete Mathematics, Probability & Statistics, IoT Systems, and Tableau Data Visualization.**
